STANDARD

Lamp will Cause Eye Damage and Skin Damage. Do not look directly at lamp. Do not expose skin directly to lamp

This economy shop light unit with germicidal UVC lamp is ideal for use in all settings where bacteria, virus, or mold can be exposed, UVC (germicidal) lamps are used in professional water and air disinfection units. TUV T8 lamps offer almost constant UV output over their complete lifetime, for maximum security of disinfection and high system efficacy.

Construction:

- This unit is designed from heavy gauge die formed steel and is finished in baked white enamel or polyester powder coating for maximum durability and reflectivity. Reflector, socket bar, and end plate, snap-on allowing for tool-free assembly. End plate doubles as coupler and aligner when fixture is used in continuous run. Mirrored High reflective reflector comes standard with this unit.

Electrical

All units are furnished with UL Listed Class P thermally protected ballast. Other voltages are available upon request. Fixtures meet requirements for UL Luminaire Standard # 1598. All units comply with National Energy Standard. All units are UL certified damp location. 120v plug comes standard along with a toggle switch mounted on the unit. M 59006648

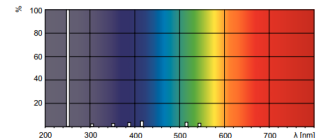

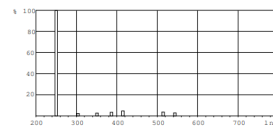

Mounting

Fixture is equipped with provisions for surface mounting, pendant mounting, or chain hanging and can be installed either individually or in continuous runs. 7/8" knockout is provided in end plate for conduit connector

WARRANTY & LISTINGS

- 5-year warranty of all electronics and housing.
- UL Certified for damp location M 59006648
