Orange Replace Cartridge
Red UV Compromised

Components

Outlet Grill
Particulate Screen
Cartridge Assembly

Phase 1

First baffle shows airflow and creates turbulence

Phase 2

Microbes & pollutants killed or inactivated by germicidal UVC along with odors and VOC's

KEEPS ON KILLING & CLEANING

Each time air recirculates, the more contaminants are destroyed...permanently

Phase 3

Large particulates are trapped, completing air purification process

Here's How It Works!

Unit Specifications:

Model #	UV-400
Power Usage	93 Watts
Electrical	12V/60Hz/1.6A
Unit Size	32" x 12.5" x 9.5"
Weight	18 lbs.
Room Coverage	Up to 800 Sq Ft
Safety	ETL Listed

Speed	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Average DB	54	57	60	63	64.5	65.8	67.5	68.8	72.9	74.1	75.2	76	76.6	72.2	77.8
